
Oregon Health Plan Financial Policy

The Oregon Health Plan (OHP) is an insurance program offered by the state of Oregon for people who are experiencing financial hardship. Unfortunately, this insurance does not cover any chiropractic services. Therefore, we would like to offer chiropractic care at a greatly reduced rate to people who have insurance with the Oregon Health Plan.

- The fee for each office visit, including the examination, all therapies and chiropractic manipulation will be a total of \$35.00
- The following additional services will be your responsibility if they are needed and are not included in the \$35.00 per visit fee:
 - X-Rays
 - Supplies (braces, heel lifts, pillows, all-temp packs, etc.)
 - Massage Therapy
